

THE ART OF STAYING YOUNG

Editor's Choice by Adrienne Papp, Profile Editor

We all thrive to look good and feel good. These two principles go hand in hand. When we look our best, we feel much better about ourselves, and when we are healthy and happy, it radiates on the outside. How do we achieve that perfect smile, glowing skin, toned body, and internal health? We found answers from noted celebrity practitioners who offer the latest technology and treat stars and dignitaries from around the world. We personally tested them.

"Everyone wants to look good," says world-renowned celebrity dentist, **Dr. Eric Fugier**. "It's all about natural beauty, excellence in dentistry, and artistry." Dr. Fugier's rise to fame started by mastering his profession from the father of "Esthetic Dentistry," Dr. Charles Pincus, who was the personal dentist for *Judy Garland, Shirley Temple, and Elizabeth Taylor*. Dr. Fugier's services include a variety of **cosmetic and restorative dentistry**, including crown and bridge work, the famously perfect yet natural veneers, and full mouth reconstruction. One of his specialties, "Smile Redesign Consultation," is offered to show how beautiful your smile can be by using computer imaging technology. "People do not understand that good dentistry requires a combination of proper technique along with experience and artistic ability. The mouth is where everything starts - it is important to your entire body and the first impression you make. This is why we are so involved with biological dentistry."

Frequently featured in news magazines, having a uniquely designed office that makes you feel right at home, voted as Best Dentist in America and referred to as the "Godfather of repairing botched teeth", Dr. Fugier can make even a perfect smile brighter. If you're not happy with your smile, Dr. Fugier is the best choice! DrEricFugier.com, 310 859.1575, Airport: Santa Monica (SMO).

aging expert with practices in Westwood and Malibu, is board certified in dermatology and dermatopathology, and is an Assistant Clinical Professor of Medicine/Dermatology at The UCLA Medical School. He has lectured on the latest **anti-aging techniques** at "Anti-aging Medicine 2000" and co-authored books. He now applies his extensive experience and technological skills to this most unique skin rejuvenation therapy that puts the "bloom of youth" back in your skin. With just one treatment you will see a dramatic difference! Ten years off is the minimum. JamesHSternbergMD.com, 310 208.8680, Airport: Santa Monica (SMO).
