

General Treatment Consent Form

Patient name: _____

Medical History Information

Please understand that it is important that you divulge any information about your medical history to your dentist. It is important that you inform us of any medicines that you are taking each time that you come to an appointment as some medications can cause harmful reactions with dental anesthetics, analgesics, antibiotics or other medications. Please be sure to provide us with a list of any drug allergies you have.

Restorations

I understand that care must be exercised in chewing on fillings until directed by doctor or staff to avoid breakage or soft tissue damage. I understand that a more extensive filling than originally diagnosed may be required due to additional decay. I understand that sensitivity may occur after a newly placed restoration.

Changes in Treatment Plan

I understand that during treatment it may be necessary to change or add procedures because of conditions found while working on the teeth that were not discovered during examination, for example, root canal therapy following routine restorative procedures. I give my permission to the Dentist to make any/all changes and additions as necessary after consultation.

Complications

Complications resulting from the use of dental instruments, drugs, sedation, medicines, analgesics (pain killers), anesthetics, and injections include (but are not limited to) swelling, sensitivity, bleeding, pain, infection, numbness and tingling sensation in the lip, tongue, chin, gums, cheeks, and teeth (which is transient but on infrequent occasion, may be permanent), reaction to injections, changes in occlusion (biting), jaw muscle cramps and spasms, temporomandibular (jaw) difficulty, referred pain to ear, neck, and head, nausea, vomiting, allergic reactions, delayed healing and treatment failure. The risks of complications from medications used/prescribed with general dental treatment include, but are not limited to, drowsiness, lack of awareness and coordination, nausea, allergic reactions, etc. (which may be influenced using alcohol, tranquilizers, sedatives or other drugs). [It is not advisable to operate any motor vehicle or hazardous device while experiencing side effects of the medications we may prescribe.]

X-rays and photos

Modern dental x-ray equipment is extremely low-dose radiation. Diagnostic x-rays provide the dentists with valuable information about your teeth and supporting bone that cannot be evaluated otherwise. Our office takes the minimum x-rays to allow us to do a thorough exam for each patient. All patients 18 years and older will receive a full mouth series of intra-oral x-rays. Without these x-rays, we cannot do a complete exam of the entire mouth and jaw. We may also take photos of our patients as part of their permanent record. We will not release these photos to anyone without your permission.

By law we are required to keep a patient's original x-rays and record in this office. Original x-rays or records will **NOT** be released. The patient or a designated person may request copies of their x-rays or record, however, there is a fee for duplication. We also require a minimum of 5 days' notice to copy x-rays. There is no fee for us to send x-rays to a specialist that we refer you to.

Specific Problem Examinations

If a patient requests only a specific problem be addressed (i.e.: broken tooth, pain in one area, etc.) this is considered a problem focused evaluation. X-rays will be taken in this specific area only, and a complete comprehensive examination will not be done. The dentist cannot diagnose problems in other areas of the mouth. Please understand that this appointment will be for the treatment/diagnosis of an emergency/urgent need. Any future treatment of other areas will require additional x-rays and a complete exam. You will not be considered a patient of record unless this examination is completed.

Minors

We must receive **written** consent **prior** to performing any non-emergency dental procedures on a minor. Grandparents, step-parents, friends, relatives, etc. are not legally allowed to consent to dental procedures, unless they have been given **written** consent by the parent or legal guardian. Please do not send your child to an appointment alone or with someone other than yourself, unless you have filled out any necessary consent forms prior to the appointment, otherwise we may have no choice but to reschedule your child's appointment to another day.

Specialty Referral and/or Second Opinion

General dentists perform most all dental treatment today. However, we want all patients to be aware that specialty fields exist in dentistry, particularly in the fields of oral surgery, orthodontics, periodontics, pediatric dentistry, and endodontics. In some cases, we may have to refer certain procedures out to a specialist. We would be happy to offer you the names of specialists for you to have a second opinion and/or have actual treatment performed by a specialist.

I hereby authorize the Dentist and/or Dental Staff to proceed with and perform the dental restorations and treatments as explained to me. I understand that this is only an estimate and subject to modification depending on unforeseen circumstances that may arise during treatment. I understand that regardless of any dental insurance coverage I may have, I am responsible for payment of dental fees. I agree to pay any attorney's fees, collection fees, or court costs that may be incurred to satisfy this obligation. I understand that dentistry is not an exact science and that, therefore, reputable practitioners cannot fully guarantee results. I acknowledge that no guarantee or assurance has been made by anyone regarding the dental treatment that I have requested and authorized. I have had the opportunity to read this form and ask questions. My questions have been answered to my satisfactions. I consent to allow Dentist and/or Dental Staff to take x-rays and perform an examination on me today.
