

Patient Financial Policy

It is our office policy to receive payment at the time of service.

If you have dental insurance we will file claims on your behalf. In order to successfully do this we will need some pertinent information including: legal name of patient and the insured, birth date of patient and the insured, address of patient and the insured, employer of the insured, name of insurance carrier, and insurance identification number or social security number.

If you have insurance we ask for you to pay your deductible and/or co-pay at the time of service.

While we do participate with many dental insurance plans, please realize that your dental insurance is a contract between you and the insurance carrier, and not between the insurance carrier and the doctor. You are still responsible for any fees not paid for by your insurance. These fees are due and payable at the time services are rendered unless prior financial arrangements have been made.

We do accept Visa, Mastercard, and American Express cards as well as personal checks. We also participate with CareCredit.

A late charge may be incurred on any overdue balance. When your bill is unpaid, a collection agency may be chosen to manage delinquent accounts. If your account is placed with a collection agency, you will be responsible for all costs of collection.

I have read and understand this office's financial policy:
