

11-19-12

My feet are of
undermost
concern to Dr. A.
He treats my feet
as if they were
his own.

Would I refer him
to my friends?
Absolutely, of course
I would.

He follows up
with me as to what
my tests results
are and what
might need to
be done to make
my feet work
for me and help
me not to fall.

He gets 4 ★★★★★
