How can we help you?

Emergency, general, or joint cases:

We have privileges at GBMC and can treat surgical emergencies, post cases under general anesthesia and perform joint cases with our retina and glaucoma colleagues.

We have a minor procedure room:

We can do biopsies, conjunctiva and minor cornea procedures.

Patients and families from far away:

We can admit via 23-hour obs post-op.

We do every type of corneal transplant:

PKP	PKP triple - open sky ECCE
DALK	Femtosecond assisted PKP
DSEK	DSEK with ACIOL or aphakia
DMEK	DSEK + Lens repositioning Phakic DMEK in pts < 50 y.o.

We can help with additional workup:

- Ultrasound Biomicroscopy
Visualize ciliary body / posterior iris
- Nidek OPD III
Evaluate higher order aberrations
- Oculus Pentacam
Visualize the posterior cornea
- Specular Microscopy
Evaluate endothelial cell density
- Anterior Segment OCT
Gauge corneal scar depth

Practice News Updates:

ASCRS Our study on the treatment of anterior basement membrane dystrophy (ABMD) and recurrent corneal erosions (RCE) was presented at ASCRS in LA in May.

ASCRS Our study on pre-stripped DMEK donor graft viability was also presented.

We taught a DMEK course to a group of domestic and international corneal specialists at ASCRS.

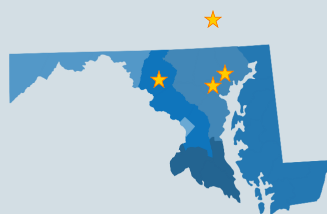

We are active in clinical trials to further benefit our patients and the understanding of corneal disease.

We offer epi-on & epi-off crosslinking to patients with keratoconus, post-LASIK ectasia, and corneal ulcers.

Dr. Bell in PA had a beautiful baby girl, Ellie Diane Strybos, 7lb6oz on 7-14-17. Dr. Ghazzi will help cover Dr. Bell.
