

Loyalty and Dedication

Dr. Maplethorp has served the community for the past 25 years and now she is pleased to announce she is sharing the torch with Dr. Siu. Together, they will continue to provide quality care to the Maple Ridge and Pitt Meadows communities. Our patients often comment on the friendly and happy environment of our office which shows how much we all love our profession and enjoy working together. We are proud to say that half of our staff have been a permanent fixture of the office for over 10 years.

Save the Date!

Office Open House

February 25th

5:00-8:00pm

Please come by with your staff
to see the office and celebrate
our new look with us!

MRO version
2.0

After 25 years in the same location, Dr. Maplethorp has grown her practice from the original 800 square foot space to the present 1500 square feet. The office has undergone several renovations and recently, we have completed quite a makeover! While the general layout was maintained, we have made changes to improve efficiency, our sterilization area, seating areas for patients and their families and the overall esthetics of the practice.

HUB Patient

Since the launch of our HUB rewards program, we have received an overwhelming amount of feedback and positive reviews from our patients and their parents. Follow us on Facebook to view and get office updates.

Receptionists Extraordinaire!

Whenever your patients and your offices call, our receptionists Debbie (left) and Shannon (right), are the first ones to greet you. We rely on them to organize appointments that accommodate the scheduling needs of our patients and assist them on the financial end for a smooth transition into a better smile!
