

ProSites Launches New Solution to Deliver Improved Security and Patient Onboarding Tools for Dental Practices

Temecula, CA – September 19, 2017 – ProSites, a leading dental website design and online marketing provider, today launched a new product suite that blends the latest tools in digital patient onboarding, secure communications and robust analytics, which will enable doctors to deliver a superior patient experience from every touch point. The *ProSites Premier* product suite is now available to all dental offices nationwide.

ProSites Premier includes a personalized HTTPS website for enhanced security and usability, a patient portal with digital patient onboarding forms, secure email, and call tracking to help dental offices understand the return on investment from their online marketing efforts.

"As a leading online marketing provider for dental practices, we are committed to continually developing innovative solutions that help doctors achieve measurable practice growth," stated Keith Washington, VP of Products at ProSites. "This new product suite further affirms our commitment to providing solutions that help our customers stay ahead of the ever-changing technology landscape."

Since 2003, ProSites has been the trusted dental website design and online marketing provider to thousands of practices. Their comprehensive suite of online marketing solutions includes website design, search engine optimization, pay-per-click advertising, automated patient communications, and social media management. The company's award-winning designs and exceptional customer service has earned the company recognition on the Inc. 5000 list of America's fastest-growing private companies, five times.
