Diverse and Dynamic are two words that sum up the women of Consultants in Dental Aesthetics, the renowned privately owned and operated dental practice in The Vintage/Champions area of Houston. It seems they have revolutionized the dental experience into a five-star “ultimate service experience.” Let’s take a glimpse into the lives of two of their highly admired and influential women in business.

Mary Ann Landry - Executive Director

SERVITUDE

At the very core of Mary Ann Landry—Executive Director, is her belief and value of service to others. Her polished and poised disposition and positive can-do attitude has the many women of CDA (Consultants in Dental Aesthetics) following her lead. Making a difference in the life of her family, her dental practice and her community drives her daily. “Counting my blessings, being grateful and trying to live up to my God-given potential is a huge responsibility for me to be more, and do more with the talents I have been given.”

Developing people, developing her team is what sets CDA apart from any other business or dental practice. Her team endures hundreds of hours of service and leadership training during their tenure with CDA. “We host internships for pre-dental students and are proud to account several success stories and have been sited as an influential mentor in their educational and professional development. My objective is to touch the lives of the people I have the opportunity to encourage and inspire. If they merely feel they are better people or better equipped for knowing me; then, enough said.”

Being generous means more than fundraising, it means giving of your time and talents; which is one of the reasons she coordinates the Dentistry from the Heart initiative annually at her practice. During this day, her team of Doctors, Assistants, Hygienists, Pre-Dental Students and Patients come together to offer a day of FREE dentistry to those in need.

BEING INTENTIONAL

You have got to set the bar high for yourself and others to make an impact. Mary Ann most recently participated in The Chevron Run for a Reason Marathon benefitting Dress for Success – Houston; a charity serving women in need returning to the workforce. During this day, her team of Doctors, Assistants, Hygienists, Pre-Dental Students and Patients come together to offer a day of FREE dentistry to those in need.

Namrata Singh - D.D.S.

WHY DENTISTRY

Dr. Namrata Singh trained to be a dentist because of the opportunities she would have to touch the lives of many - “the mouth is the gateway to the body and the time spent with patients educating them is directly correlated to their overall health”. As a highly successful Associate Dentist at Consultants in Dental Aesthetics, she has been afforded the opportunity to spend the proper amount of time required to educate and deliver excellent dental care in a patient-centric, technology savvy, spa environment.

HOUSTON PROUD

As a native Houstonian, Dr. Singh was eager to return to her hometown in Northwest Houston after completing her dental education at the University of Southern California in Los Angeles. She has been practicing under the direct mentorship of Dr. Michael J. Landry since January of 2013. The highly trained team and collaboration between the three dentists at Consultants in Dental Aesthetics, has fostered an environment where you are certain to get the best, most current dental treatment. Consultants in Dental Aesthetics has a team of dentists, assistants, and hygienists who together have a wide range of diverse talents and technology resources; allowing for the patient to, in most cases, simply have one stop for all their needs.

STRIVING FOR MORE

With this philosophy, Dr. Singh has sought out extensive hours of training and has implemented the Sleep Apnea program at Consultants in Dental Aesthetics. She is currently treating patients who suffer from the highly under-diagnosed disease of sleep apnea and snoring. She is a member of the American Academy of Dental Sleep Medicine and the Academy of General Dentistry and is actively pursuing her fellowship in The Academy of General Dentistry.

Outside of the office, Dr. Singh is also involved with Dress for Success-Houston. She is a valuable speaker and has presented to their Professional Women’s Group inspiring oral hygiene, oral health, and the absolute power of the smile.
