

**HONOR ROLL**  
YEARS  
ON THE LIST

Dr. Frost | 1

## Lee Frost, DDS

### • General Dentistry

Dr. Lee Frost has been practicing general dentistry in Rutherford for 35 years. He learned the importance of helping people in the community while practicing with his late father. "I feel extremely lucky to be running a dental practice that was started by my dad, Dr. William Frost, more than 64 years ago," he says. "He was an incredible mentor and it's truly a privilege that my team and I are now treating our fourth generation of patients."

Dr. Frost and his highly trained, professional staff care deeply for their patients, and they always strive to make every dental visit as comfortable as possible, in a very compassionate, family atmosphere. The positive environment that they have created allows Dr. Frost to produce top-quality and long lasting results, every day.

The state-of-the-art office uses the latest procedures and equipment available, providing everything from preventive care and laser cos-

metic dentistry, to dental implants, porcelain veneers and crowns, wisdom tooth surgery, Invisalign® and root canals.

"I love being a dentist and I deeply appreciate being recognized by my peers and being chosen as a *New Jersey Monthly* Top Dentist," says Dr. Frost. "This is one of the highlights of my 35-year career."

Dr. Frost is a graduate of Temple University Dental School and he completed an implant residency program at the Center for Implants and Aesthetics at Englewood Dental in Englewood, NJ. Recognizing the importance of continuing education, Dr. Frost and his team are constantly learning and keeping abreast of the latest advances in the dental field in order to better serve their patients.
