Implement Implant Dentistry on Monday Morning and Watch Your Practice Grow!

- Overwhelmed by the thought of treatment planning and diagnosing implant dentistry?
- Looking for an implant course that gives you substance and not fluff?
- Curious how some colleagues work less but have more income?
- Tired of the intimidating before and after picture (I love myself) seminars?

If you answered yes to any of these questions then this seminar is for you. This first-of-its-kind seminar will provide you with a simple but engaging approach to understanding the principals of Implant Dentistry as well as the practice management concepts necessary to grow your practice. You will learn why and how Implant Dentistry is the biggest tool for practice growth. Become the expert in your area and create a win-win-win environment for you, your team and your patients!

**Learning Objectives:**

- Hands-on: implant placement, restorative techniques, surgical techniques and suturing
- Implant treatment planning and case selection
- Proper surgical planning including implant choice
- Proven systems to collect for treatment
- Proven case acceptance techniques
- Simple strategies to doubling hygiene production
- Indications for PRP/PRF (platelet rich plasma and fibrin therapies)
- Easy scheduling and much more

---
