INFORMATION CONCERNING YOUR TREATMENT

Sinus Precautions

1. **These should be followed for 10-14 days**
2. Open your mouth when you sneeze.
3. Do not suck through a straw or cigarette smoke.
4. Avoid blowing your nose or any other activity which may result in pressure changes in your nose and mouth.
5. Take your antibiotic until it is finished.
6. Take your antihistamine (Benadryl 25 mg every 4-6 hours for 1 week).
7. Take your decongestant (Advil Cold and Sinus 1 pill every 4-6 hours)
