On behalf of my entire staff, I would like to welcome you to our Dental Family. Our goal is to provide our patients progressive, high quality treatment in a fun, caring, and personalized manner. Our office is designed to allow every patient to have a positive and comfortable experience.

Sterilization and patient safety are a top priority. We test and monitor our equipment monthly. All equipment is new and up to date, and our x-ray machine produces superior x-rays while utilizing extremely low doses of radiation.

We specialize in family dentistry, including cosmetic procedures. We offer sedation dentistry for those patients who may be apprehensive or desire a single visit verses multiple visits. We have the newest whitening system, ZOOM, as seen on the television show "Extreme Makeover".

Usually the first visit consists of a thorough evaluation of your oral health, which includes a periodontal evaluation, oral cancer screening, and the necessary x-rays to obtain an accurate and safe plan of treatment. Upon completion of your evaluation, I will inform you of any concerns present and the necessary treatment. My staff will then review the fees involved to restore your dental health.

We have enclosed our patient information with a health questionnaire, HIPPA Privacy Act, and Insurance Authorization – Signature on File, so that you may take the time to complete it before your appointment time. **Please bring this information with you as well as your dental insurance card, as it is of vital importance in providing the best care for you.**

We realize in selecting your Dentist, you have a choice and we appreciate the opportunity to serve you. Through our personalized care we hope to gain your confidence and trust that you will feel comfortable in recommending your friends and family to our Practice.

My staff and I are looking forward to meeting you.

Warmest Regards,

James L. Gallagher, D.D.S.

"We take your smile to heart"
